Weird Note Boogie - (J. Stuart)

We've gotta brand new boogie, it's a little bit off
Jammin notes in a bottle like a Molotov
Throw it in the crowd but don't be scared
Some of them notes are bound to end up weird
it's a Weird Note Boogie

We gotta Weird Note Boogie, we do it Tru-Tone style
Well a crazy little number and we try to get it right
But it always sounds different on different nights
it's the Weird Note Boogie

The gears all packed as the night's coming on
Grab a Stetson hat, let's get real gone
Stacking up the tunes with the hillbilly sound
The joint's a'jumpin, our friends are coming round
One last thing as we're kicking off the show
I'm hopin' I remember where my fingers s'posed to go

Weird Note Boogie, we do it Tru-Tone style
Well mix a little, mix a little for your happy hour
Two parts sweet and one part sour, it's the Weird Note Boogie

We've gotta brand new boogie and we try to get it right
But it always sounds different on different nights
I brought enough from home found another one here
A sloppy note a'sloshing in my second glass of beer
it's a Weird Note Boogie

We got the Weird Note Boogie, we play it Tru-Tone style
We gotta lotta strings, we gotta lotta frets
Where we lay down our fingers, gotta place your bets
on the Weird Note Boogie
